

GIGASPACES INSIGHTEGE PLATFORM

EMPOWER THE INSIGHT-DRIVEN ORGANIZATION

GigaSpaces' InsightEdge Platform is an open-source in-memory insight platform, unifying fast-data analytics, AI and transactional processing for instant business insights and actions. InsightEdge contains all the necessary SQL, Spark, Streaming, and Deep Learning toolkits for scalable data-driven solutions. The platform offers ultra-low latency, high-throughput transaction and stream processing, and co-location of applications and analytics to act on time-sensitive data at millisecond performance.

The simplified architecture not only enables you to keep up with "millisecond industries" it also eliminates cluster and component sprawl complexity by radically minimizing the number of 'moving parts.' InsightEdge is cloud-native and infrastructure-agnostic for hybrid cloud and on-premises environments; and supports intelligent, multi-tiered storage across RAM, SSD and Storage-Class Memory (3DXPoint).

**THE GIGASPACES
INSIGHTEGE PLATFORM
IS AN OPEN-SOURCE
IN-MEMORY INSIGHT
PLATFORM UNIFYING
FAST-DATA ANALYTICS,
ARTIFICIAL INTELLIGENCE
AND TRANSACTIONAL
PROCESSING, FOR
INSTANT BUSINESS
INSIGHTS AND ACTIONS.**

DATA-DRIVEN INSIGHTS ARE THE NEW COMPETITIVE EDGE

BENEFITS

INSTANT INSIGHTS

Unlock immediate insights right as data is born, empowering time-to-analytics and time to action at sub-second scale. Hyperscale analytics from SQL, Streaming to machine learning through Apache Spark.

EXTREME PERFORMANCE

Ultra-low latency, high-throughput transaction and stream processing. Co-location of applications and analytics to act on time-sensitive data at millisecond performance.

TCO REDUCTION

Simplified architecture eliminating cluster and component sprawl complexity; radically minimizing the amount of moving parts. Cloud-native, infrastructure-agnostic deployment, for hybrid cloud and on-premises environment. Intelligent multi-tiered data storage across RAM, SSD and Storage-Class Memory (3DXPoint).

TOTAL CONFIDENCE

Mature battle-tested platform for mission critical businesses. Highly available with up to 5 nines reliability and auto healing. Geo-redundancy and fast data replication for disaster recovery.

*"InsightEdge helps users unlock immediate insights right as data is born, empowering time-to-analytics at sub-second scale. **Unifying transactional and analytical data in a single strong, consistent transactional layer enables closed-loop analytics** where immediate insights instantly impact associated applications for improved business value."*

Everyone Wants 'Real-time Analytic Insights' But Which Architecture Will Get You There?

ABOUT GIGASPACE

GigaSpaces provides software for in-memory computing, fast data analytics, and cloud orchestration through two product lines, InsightEdge and XAP In-Memory Computing. Hundreds of Tier-1 and Fortune-listed organizations worldwide leverage GigaSpaces technology to empower the real-time digital enterprise and accelerate digital transformation. Primary sectors include financial services, retail, transportation, telecom, and healthcare. GigaSpaces offices are located in the US, Europe and Asia.
